Shenzhen, Guangdong, China

Education

Master of Applied Psychology (Big Data in Psychology and Behavior)

Beijing Normal University, Sept 2023 – Jul 2025

- GPA: 3.5/4.0 | Relevant Coursework: Advanced Experimental Techniques in Psychology (89), Data Mining (88), Affective Computing in Psychology (92)
- Scholarship: Outstanding Graduate Student (2025), Second-Class Master's Scholarship (2024),
- Dissertation: Construction and Validation of a Multifactorial Predictive Model for Middle School Students' Academic Performance Based on Machine Learning

Bachelor of Psychology

Inner Mongolia Normal University, Sept 2018 – Jul 2022

- Awards: Grand Prize, "Word Talent Cup" National English Vocabulary Competition
- Certification: Senior High School Teacher Qualification Certificate of Mental Health Education (2022)
- Dissertation: Correlation Study of Autonomy and Hope among Left-behind Children

- **Xu, Y.** (2025, July 2–5). Restructuring connections: The impact of online positive psychological interventions on depression and well-being networks [Paper accepted for presentation]. *9th World Congress on Positive Psychology*, Brisbane, Australia.
- **Xu, Y.**, Xu, J.-P., Ran, Z., & Chan, H. (2025, May 22–25). Ego depletion reconsidered: Task boredom confounds control group performance and leads to greater depletion [Paper accepted for presentation]. *2025 APS Annual Convention*, Washington, DC, United States.
- **Xu, Y.**, & Chan, H. (2024, December 13). Rethinking ego depletion: Bayesian insights into task effects [Paper presentation]. *Joint Academic Exchange Conference for Psychology Graduate Students*, Beijing Normal University at Zhuhai, China.
- Ran, Z., & **Xu, Y.** (2024, October 19–20). The shaping role of emotional beliefs on emotion regulation: A mental health study [Paper presentation]. *13th Academic Conference of Chinese Psychologists*, Zhongshan University, China.

Professional Experience

Research Assistant, AI& Psychology Lab,

The Chinese University of Hong Kong, Shenzhen, Sep 2025 –

- Current research focuses on the reproducibility crisis, meta-science, and psychological/statistical methodology. One completed project develops a causal-path decision framework for selecting control variables in social science research, providing new methodological guidance for causal inference and preregistration practice.
- Another line of work experimentally integrates AI and psychology, including topics such as AI for psychological research and the ethics of AI use, with the aim of promoting the responsible application of artificial intelligence in psychological and behavioral sciences.

Teaching Assistant, Psychometrics and Assessment,

Beijing Normal University Faculty of Psychology, Zhuhai, Mar 2025 – June 2025

- Assisted in preparing and updating teaching materials for graduate-level psychometrics and assessment courses.
- Facilitated group activities and discussions to deepen students' understanding of psychological measurement theories and practical applications.
- Provided technical support for statistical software (e.g., SPSS, R), and guided students in designing and analyzing psychological assessment projects.

Teaching Assistant, Management Psychology

Beijing Normal University Faculty of Arts and Sciences, Zhuhai, Jul 2024 – Jan 2025

- Assisted in designing and revising course materials, and facilitated class discussions to enhance student engagement.
- Provided statistical guidance and hands-on support for experimental psychology tasks, helping students improve their analysis skills.

Lecturer, Psychological Statistics,

Jingshi Muduo Education Technology Co., Ltd., Changsha May 2023 – Sep 2023

- Delivered lectures on statistical methods for psychology students preparing for graduate exams.

Intern Teacher and Psychological Consultant,

Helinger No. 3 Middle School, Hohhot, May 2021 – Jul 2021

- Delivered mental health courses to 7th-grade students, enhancing their memory skills for knowledge and emotional regulation abilities.
- Assisted in psychological assessments and provided one-on-one counseling for students facing personal challenges.

Research and Projects

Capability Assessment Design for Campus Recruitment, collaborated with *Zhaopin*, May 2024 – Present

- Developed more than 50 assessment items focusing on problem-solving and innovation skills, contributing to recruitment selection tools.

Boya Elite Talent Project, collaborated with *Boyawendao Academy of Examination and*

Assessment Techniques, Sept 2024 – Dec 2024

- Designed demographic and external factor measurement tools.
- Conducted data analysis, included factor analysis and machine learning, for project reports presented at the BNU Talent Forum, with coverage by People's Daily Online.

Textbook Revision, Modern Psychology and Educational Statistics.

- Contributed to the revision and proofreading of Modern Psychology and Educational Statistics, 5th and 6th Editions (Editor: Houcan Zhang).
- Developed an electronic resource library for the textbook's latest edition.

Skills

- Data Analysis: Python (Machine Learning, Natural Language Processing), R (Bayesian Statistics, Structural Equation Modeling), SPSS
- Experimental Design: Advanced expertise in psychological and behavioral data modeling
- Technical Skills: Text cleaning, network analysis, pre-trained language model applications, online experimental design using Java
